■ Diva, seducing the lines of aesthetics.

DIVA is here - the new foremost performer in the world of colour video door entry systems. DIVA is a true celebrity and immediately makes an impression thanks to its seductive appearance which in this case is also revolutionary. DIVA is unique and inimitable and stands out from the crowd.

■ Comelit design and technology.

Born from advanced technological and design research in the **Comelit Group Spa** Research and Development Centre, Diva becomes the new benchmark for the most novel concepts in video door entry systems. 3.5" high resolution LCD monitor, **hands-free***, and its many other features cannot suffice to describe the strong free spirit of this innovative protagonist, wich is Diva.

** by hands free we mean both duplex and simplex; "the user decides" which is most acceptable solution dependant on the ambient noise level.*

■ Comelit elegance and style.

The slim surround is just 3 cm in depth, like a decisive graphic line, allowing the monitor to be surface mounted yet unobtrusive. In no time at all an elegant and original desk conversion kit can transform Diva into the most stylish desk monitor. A Diva requires privacy, so a special circuit ensures the call tone can be temporarily excluded (for example, at night or during the week-end). This is not all - brightness and call volume adjustment make it easy to personalise the main functions at any time, making the monitor an integral and modern part of home comfort.

■ Comelit functionality.

Diva has been conceived as a single monitor to be fitted with a special "*dedicated bracket*", depending on the type of cabling.

Brackets for traditional, simplified and digital Comelbus systems are available.

A refined and elegant duo for a home worthy of a "Diva".

This splendid colour video entry phone is the result of combining Powercom, the Comelit entrance panel with its unmistakable blue LEDs, and Diva, as if in perfect harmony. This is the proposal Comelit puts forward to provide a touch of elegance to your home. This kit (art. 8161W) is available in the single-family version for the traditional cabling system and contains everything required to build a complete system. Excluding the cable and electric door lock

art. 8161W- SINGLE-FAMILY KIT FOR TRADITIONAL CABLING WITH DIVA COLOUR MONITOR AND POWERCOM ENTRANCE PANEL

The kit includes:

- 1 DIVA colour Monitor art. 4780
- 1 Traditional bracket art. 4785
- 1 Flush-mounting box art. 3110/1
- 1 Module-holder frame art. 3311/1G complete with cornice (grey)
- 1 Module art. 3321/1 preset for audio-video speaker unit
- 1 Audio-video unit art. 4653 with colour camera
- 1 Transformer art. 1195
- 1 Audio-video power supply station art. 4594.

ART. 4780 - DIVA HANDS-FREE MONITOR

Colour Monitor with 3.5" high resolution LCD. Made of ABS plastic with aluminium fascia, fitted with brightness, call volume adjustment, door-opening pushbutton, a voice activation pushbutton provided with LED and 1 pushbutton for the "privacy" function provided with LED. This LED has dual functions one for privacy and the other to indicate the simplex speech mode. There are also 3 free pushbuttons (N.O.) for various services. It can be converted into the desk version by adding art. 4782.
Dimensions: 127 x 260 x 38 mm.

art. 4782 - DESK CONVERSION KIT

Desk conversion kit made of anodised aluminium. This allows the DIVA monitor to be desk mounted. Complete with 1.5 mt of cable and connection boss.
Dimensions: 84 x 104 x 245 mm.

art.4785 BRACKET FOR TRADITIONAL CABLING

Bracket for traditional cabling system required to complete the DIVA monitor.

art. 4786 BRACKET FOR SIMPLIFIED CABLING

Bracket for simplified cabling system required to complete the DIVA monitor.

art. 4788 BRACKET FOR COMELBUS CABLING

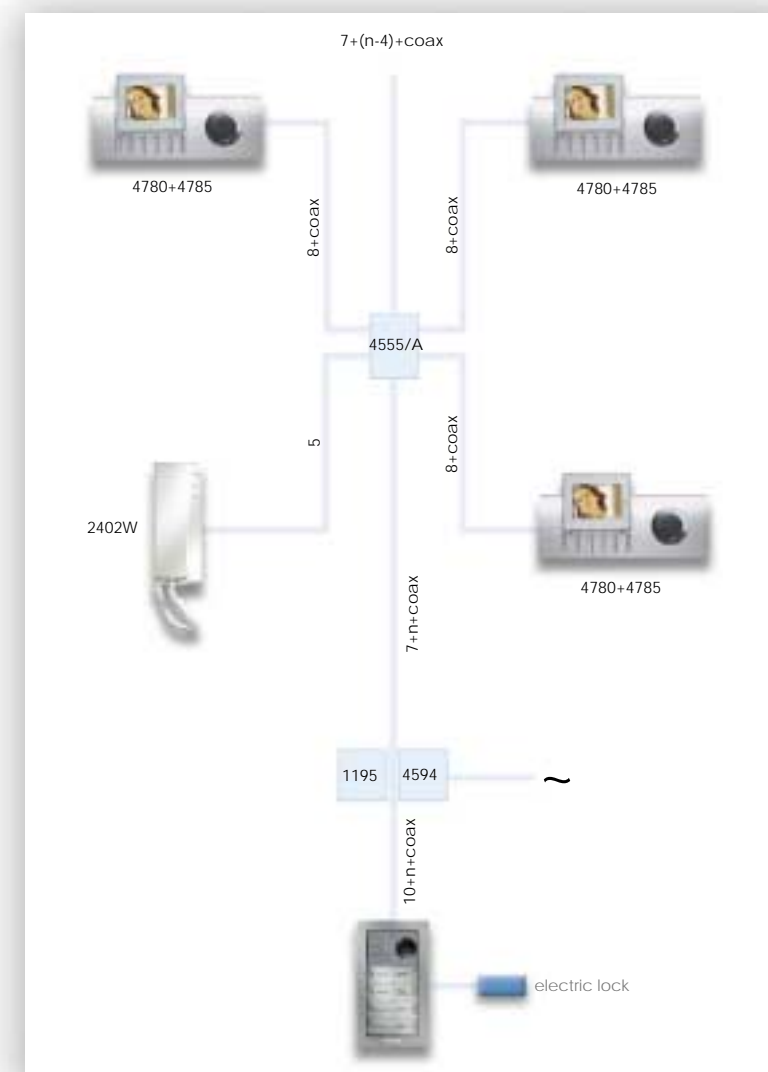

Bracket for digital Comelbus system required to complete the DIVA monitor.

art. 4794 SUPPLEMENTARY POWER SUPPLY

To be used in systems with traditional and simplified cabling with more than 20 users.

Video door entry system with traditional cabling

- audio-video input
- 1 audio-video riser
